Introduction

/ by Cris Auditore Zimmermann

Dear Friend,

In July 2020, my family and I embarked on an unforgettable trip to Florence, Italy, amidst the global COVID-19 pandemic. We had initially planned a vacation after travel restrictions forced us to stay closer to home in Germany. Our journey led us through Switzerland, Lago Como in Lombardy, Milan, Tuscany, and the beautiful island of Elba before we settled in Florence. I couldn't help but notice the absence of tourists, especially Americans and Chinese, due to the pandemic, which made our visit to Florence more peaceful and serene.

However, despite the scenic surroundings and quality family time, I was grappling with a personal crisis. I found myself experiencing panic attacks and intense stress that had been building up in the months leading to our vacation. The lockdown had disrupted our meticulously planned schedule and business goals, and I found it challenging to appreciate the beauty and tranquility of the Italian countryside.

One night, unable to sleep, I turned to a book about the Medici family, an Italian dynasty known for their profound influence on art, commerce, and politics. Cosimo de' Medici, in particular, caught my attention. His success as a banker, philanthropist, and patron of the arts during the Renaissance sparked a revelation. Cosimo was not only a prosperous businessman but also a master of maintaining order and beauty in all aspects of his life, from family to politics.

My fascination with Cosimo led to a two-year journey of discovery and transformation. Cosimo de' Medici, who lived in the 15th century, became my inspiration for a new approach to life. Cosimo's unique banking empire, influence on art and architecture, and his role as the unofficial ruler of Florence, made him an intriguing historical figure.

My journey didn't end with research; I began to invite entrepreneurs and business owners to experience the world of Cosimo de' Medici with me in the Medici GOLD Community. The Medici GOLD Community is a gateway to a world where you can design your own path to success in all areas of your life through learning from the good, the bad and the ugly from the Medici family. With our guidance and the Medici Community, you can

embark on a journey and experience breakthroughs that will shape your character and personality, helping you reach new heights in your personal and professional life.

On the pages that follow you can read the profound impact the Medici GOLD Community has on its members since the Community is all about designing a beautiful life for you personally and professionally.

My hope is that hearing from the Community directly will help you discern if the Medici GOLD Community is for you. I would love to walk in the footsteps of Cosimo

de' Medici on the streets of Florence together with you.

Yours,

Cris Auditore Zimmermann

GOLDSMITH

I'm super excited to talk about how much the Medici GOLD Community has changed my life, both personally and professionally.

My journey with the Medici Community began with a desire to connect with like-minded individuals, and the program has exceeded my expectations. My name is Chris Wintersohl, and I am a private jeweler from Frankfurt, Germany, currently residing in Palma, Mallorca. Through Medici, I have found a community of ambitious and visionary individuals, all committed to keeping things in order – your home, your family, and your business – just like Cosimo de' Medici taught.

What struck me most about the Medici GOLD Community was the exceptional quality of participants. It's a tight-knit group of big thinkers and decision-makers aiming to make a splash worldwide. This community provides me with a unique opportunity to engage in meaningful conversations with fellow

business leaders, sharing our insights, struggles, and dreams.

During my time in Florence, I was inspired by the Medici family's rich legacy and their ability to foster enduring relationships with other business families. Witnessing their influence on both business and politics was eye-opening. It made me rethink how I approach things, both in my work and personal life, aiming to build strong connections and meaningful ventures that last.

If you're thinking about joining the Medici GOLD Community, I would strongly recommend it. It's not just about making connections – it's about joining a group of supportive, forward-thinking folks who'll inspire you.

Thank you, Medici, for this incredible experience. I know that the lessons I've learned and the connections I've made will continue to shape my journey, both in business and in life.

The Medici Community is all about designing a beautiful life for business owners

As an exclusive community for business owners
we want to grow together in four key areas:

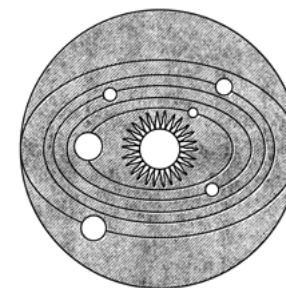

Personal Development

You cannot have great output without great input. There are principles and pathways to invest in yourself in order to grow your character and personality.

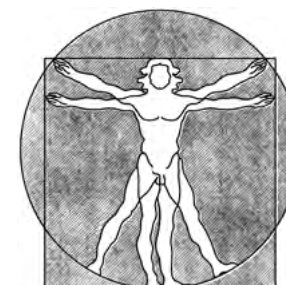

Relationship Development

Investing in your most important relationships does not happen by accident. It takes great intention to develop your marriage, the relationship with your kids, your business and your customer relationships.

Influence Development

We all want to have a positive impact on this world. Yet without influence, it is impossible to do that. How do you develop your influence? How to take control of the narrative of your life? How do you control what happens if you are not around?

Business Development

Business development is all about the acquisition of customers, delivering them valuable products and services and building the systems to retain them in the long run.

Feedback from the Community

Christian Reister

OWNER & CEO - VIOLIN ASSETS GMBH

I am delighted to share my thanks for the Medici GOLD Community, an experience that has enriched my understanding of history, culture, and business. My name is Christian Reister, and as a business owner in the field of private wealth and asset management, I can confidently say that this Community is changing my life.

Joining the Medici GOLD Community opened my eyes to the legacy of the Medici family, a legacy that continues to shape the world today. I had the privilege of exploring the magnificent city of Florence and learning about the Medici family's profound influence on art, science, and patronage.

One thing that really amazed me was seeing how the Medici family's smart choices in supporting art and science are still important now. They were ahead of their time, and their support for new ideas has really made a big impact on all of us. Being in Florence let me

explore the same places the Medicis did, feeling their wisdom all around me.

Being part of the Medici GOLD Community has given me insights into the Medici family's mindset, their actions, and the historical context of Florence during the 15th and 16th centuries. This knowledge has not only expanded my understanding of history but has also given me some really helpful tips for my business.

I highly recommend the Medici GOLD Community to business owners and anyone who loves history and culture. It's not just about learning about the past; it's a chance to get inspired and grow personally. You'll feel the Medici family's legacy alive and well in this Community, connecting you to a heritage that still matters today.

“It’s not just about learning about the past; it’s a chance to get inspired and grow personally.”

“I thought I had my life in order, but this program reveals the areas where I need to grow further.”

Carina Thoma

OWNER - CREATING EVENTS

I am thrilled to share my experience with the Medici GOLD Community, an opportunity that has impacted both my personal and professional life.

My name is Carina Thoma and I am the founder and CEO of an event management business in Germany. Going to the event in Florence was a game-changer for me. What stood out the most was how amazing the connections were and how supportive the environment was, thanks to our facilitator, Cris Auditore Zimmermann.

What I loved most about the program was how it focused on helping us grow in all areas of life, not just business. Cris coined the term “human doings” for those solely focused on business. Unlike other events where it’s all about work, this one gave us a safe space to talk about personal development, mental health, and other important parts of life that contribute to success.

Cris asked some really thought-provoking questions that made me rethink my priorities and where I’m putting my energy. I thought I had my life in order, but this program reveals the areas where I need to grow further. Getting support and insights from Cris and the other participants has been incredibly valuable.

I think every entrepreneur and business owner should check out the Medici GOLD Community. It’s not just another event; it’s a journey where you meet amazing people and learn so much about yourself. Cris really brings something special to the program with his wisdom and guidance.

Thank you, Medici GOLD Community, for empowering me to embrace my humanity and helping me pave the way for a more successful future.

Johannes Hahn

PHOTOGRAPHER & AMAZON BUSINESS

Being part of the Medici GOLD Community has changed me a lot. As a photographer and Amazon business owner, I discovered a world of opportunities within this community.

Exploring ancient buildings during our events, I realized that they weren't just structures. They were living histories, representing families and their legacies. It made me think differently about business and life.

What impressed me the most was the Medici family's values. Their emphasis on family as the cornerstone of their success resonated deeply with me. It wasn't just about making money; it was about leaving something important for their kids and grandkids.

Choosing to join the GOLD Community was all about wanting to get better in both my personal life and my business. Being part of the Medici GOLD Community is like finding a treasure trove of useful stuff and working

together with others. In a world where there's tons of information everywhere, this group is different. It doesn't just dump facts on us; it shows us how to actually use them to succeed in real life.

Going to events in different places, like Florence, opened my eyes to new things. Meeting people from all over the world showed me how important it is to step out of my comfort zone. Being part of this community taught me that when you invest in yourself, you can do way more than you thought. It makes me excited and ready to try new things with confidence.

Simply put, the Medici GOLD Community is more than just signing up; it changes your life. If you're a business owner looking for practical advice and a supportive group, this is it. It doesn't just tell you things; it helps you make things happen. I totally suggest it to any entrepreneur who wants to grow and succeed for real.

“Being part of this community taught me that when you invest in yourself, you can do way more than you thought.”
